Skills & Expertise

- Data Cleaning and Preparation
- Statistical Analysis
- Data Visualization
- SQL and Database Management
- Python/R for Data Analysis
- Machine Learning
- Business Intelligence Tools (Tableau, Power BI)

PORTFOLIO HIGHLIGHTS

Case Study: Sales Performance Analysis

I conducted an in-depth sales performance analysis to identify key factors influencing sales trends. This included:

- **Data Collection:** Gathered data from multiple sources, including CRM systems and sales databases
- **Data Cleaning:** Ensured data accuracy and consistency through rigorous cleaning processes.
- **Analysis:** Used statistical methods to identify trends and correlations.
- **Results:** Provided actionable insights that led to a 15% increase in quarterly sales.

"Riyaz Shaik provided us with critical insights that transformed our sales strategy. Their analytical skills and attention to detail are exceptional."

PROJECT EXAMPLES

Project: Service Desk Ticket Performance Dashboard

Objective: To analyse service desk ticket performance and monitor ticket resolution using Power BI.

Methods: Cleaned data using Power Query, created DAX measures, and developed interactive dashboards.

Results: Identified three key customer segments, leading to targeted marketing campaigns that improved customer engagement by 25%

Project: Financial Forecasting for Company B

Objective: Analyse ShopSphere sales data to identify business insights on revenue, profit, customers and products.

Methods: Used MySQL queries, JOINs, CTEs, aggregations and window functions for data analysis.

Results: Identified top-performing products, customers, categories, cities and sales trends to support business decisions.

SERVICES OFFERED

What I Offer

I provide a comprehensive range of data analysis services designed to help businesses harness the power of their data:

Data Cleaning and Preparation

Ensuring your data is accurate, consistent, and ready for analysis.

Descriptive and Predictive Analysis

Uncovering patterns and predicting future trends using statistical methods and machine learning.

Data Visualization

Creating clear and insightful visualizations to communicate findings effectively.

Business Intelligence

Developing dashboards and reports that provide real-time insights.

Why Choose Me

Choosing me means partnering with a dedicated professional who is committed to delivering high-quality analytical solutions. My methodical approach and attention to detail ensure that you receive insights that are both accurate and actionable. Let's work together to unlock the full potential of your data.
